

Bao Hung Nguyen

Data Scientist at FPT Software

lnhh27@gmail.com

Summary

working under recommender system using Python

Experience

Data Scientist

January 2018 - Present

- Research on recommender system for destination, news & music, point of interest
- Realize algorithms (CF, SVM, Bayer, LDA, NMF ...) in Python

Developer

September 2017 - December 2017 (4 months)

Research on recommendation system for point of interest, using topic modelling with Python technology

Assistant at National Research Tomsk Polytechnic University

May 2015 - September 2016 (1 year 5 months)

- Research under Ph.D thesis
 - Write paper, participate in conferences (international & local)
 - Laboratory tutor of Informatics, Applied MathCAD & MATLAB in math-physics
-

Education

Tomsk Polytechnic University

Master's degree, Applied Mathematics, 2011 - 2013

Activities and Societies: ##### "#####", ##### "ART-#####" ### ##

Tomsk Polytechnic University

Bachelor's degree, Applied Mathematics, 2007 - 2011

Tomsk Polytechnic University

Doctor of Philosophy (Ph.D.), Applied Mathematics, 2013
