Certification(s)

Cisco Certified Network Associate, 07/2011
Viet Professional Co., Ltd

Microsoft Certified Systems Administrator,
08/2014
Nhat Nghe Co., Ltd

Curriculum vitae

Working experiences

January 2013 – Now:

System Administrator

Almost time, I just managed and maintained a virtualized system with 3 IBM servers (DC, Services, Data), 3 L2 switches (using VLANs), 1 L3 switch (routing VLANs of 3 switches and 4 WAN fiber), 5 Internet lines (4 fiber for main line and 1 ADSL for backup line). Besides, I also took care of some small internal applications and helpdesk.

February 2012 – December 2012:

Helpdesk

After graduated, I have worked for Department of Justice HCMC as a helpdesk. This was my first job, first company I worked for. In that time, there was just one helpdesk for supporting 100 users (because only two personal was in IT team, I was helpdesk and Mr. Nguyen Ba Phan Tung was in charge of Network system).

My main task was to support users to solve troubles and/or issues in using PCs, Laptops, softwares, peripherals and a little of network. Besides, I helped them consultancy and install PCs, internal devices, and softwares that depend on their needs.

Sometimes, I also trained users in using softwares (Windows, Word, Excel, Powerpoint, internet) and peripherals (Printer, fax, scanner, IP phone, Camera) when they was launched or updated.

Quarterly, I had to schedule to maintain PCs, Laptops and other IT devices to check the usage and needs of users to plan to upgrade for them.
