

CURRICULUM VITAE OF HOANG DUC TRINH

Name: Hoang Duc Trinh
E-mail: Trinh7293@gmail.com
Phone Number : +84 1638155518
Address: Ha Noi, Viet Nam

Application for Fresher Computer vision/ Machinelearning researcher

EDUCATION HISTORY

- 2008 - 2011: study at Cao Bang Gifted High school at Cao Bang province , took part in the team of national excellent student in Cao Bang of Physics.
- 2011 - 2016: study at faculty of Physic at HUS (Hanoi University of Science),
in which:
 - 2011 - 2012: study at ULIS (University of Language and International Studies) and pass the IELTS test of 6.0 point. (because I am study in International standard program, so for curriculum in English at HUS, I had to spend the first year for studying English and have 6.0 IELTS for the back to HUS for continue studying).
 - 2012 - 2016 : back to the HUS and graduated.

EXPERIMENT

- 09/2016 – 09/2017: DTT technology group as front-end developer.
- 09/2017 – 04/2018: Leadsgen company of marketing as javascript game developer.
- 05/2018 - 09/2018: Self-study about machine learning and deep-learning

SKILLS

- HTML, CSS, JAVASCRIPT(ES6, React, react-native).
- Python, C, C++, MySql.
- Strong Intuition about deeplearning, machinelearning algorithm (linear regression, Regularization algorithm, classifier).

- Work on some self project of apply convolutional neural network on computer vision as face recognition, pattern recognition

SPECIAL SKILLS

- I am skilled in the logic analytical of code and have many ideal for the product.
- I learn very quickly and able to speak English fluently.
- I have the inspiration, aggressive and enthusiasm of youth.

AIM OF THE FUTURE CAREER

- I would like to work in an aggressive environment of programming.
- Exploiting my skills, my strength of youth and my English ability especially.
- Become the best Data Scientist about AI and machine learning.
