

LY HOANG LONG

INTRODUCTION

- First name: LY
- Last name: LONG
- Birth day: 1 - 23 - 1993
- Gender: Male
- Marital Status: Single.
- Native land: Go Cong Commune, Tien Giang Province.
- Hobbies: badminton, cycling, reading and researching
- Motto: Some people die at 25 and aren't buried until 75.

CONNECT

- Phone: 01224066285
- Email: jamethanhlont@gmail.com
- Address: *313/17 Nguyen Trai St,
5 Dist, HCM City.*

BASIC KNOWLEDGE

- Knowing about hardware PC.
- Having some good basic knowledge about programing (C/C++) and database (MySQL).
- Having the intellectual maturity about network infrastructure: Routing, Switch, NAT, ACL, Frame relay, MPLS VPN,...
- Good in using Window Server 2008 and Linux (Ubuntu, CentOS) to manage network system.
- Having a good basic about Wireless Technologies.
- Knowing about Security Network.
- Familiar with Virtual technologies: VMware ESX, KVM.
- Good in understand the English documents.

📁 COMMUNICATION:

- **Good in communication:** Empathy, sociable, honest and loyal.
- **Good behavior in work:** enthusiasm, predisposition for discovery, creativity and problem solving.

📁 EDUCATION

- **Ho Chi Minh City Pedagogical University**

📁 FOREIGN LANGUAGE

- **Proficient in listening, speaking, reading, writing and presenting in English.**

📁 CERTIFICATE

- **CCNA certificated by University of Science.**

📁 SPECIALIZED SKILLS:

❖ Network:

- **Knowing about Ethernet technology, VLAN, VTP, STP,...**
- **Good in Routing: Static and Dynamic (Rip, OSPF, EIGRP)**
- **Knowing basic about VPN, MPLS VPN.**
- **Good in some WAN technologies: Frame Relay**
- **Knowing about NAT, Control Access List (ACL).**
- **Troubleshooting some network connect errors.**

❖ System:

- **Knowing basic about Linux (CentOS, Ubuntu) and Window server 2008**

❖ Virtual technology:

- **Knowing basic about KVM, VMware ESX 5.0 and Cloud stored technology.**

❖ MPLS VPN:

- **Have a good basic about MPLS technology and deployment VPN based on MPLS infrastructure.**

❖ Security:

- **Security PPP (PAP, CHAP), layer 2 (port, DHCP...), layer 3 (ACL) and router (AAA).**

❏ EXPERNCES AND PROJECTS

❖ *MPLS VPN Technology*

- Time: 10/2014 - 05/2015
- Position: leader
- Responsible for: studying about MPLS and deploying VPN based on MPLS network core.
- Work location: Ho Chi Minh City University of Pedagogy

❖ *Building FreeNAS system*

- Time: 03/2014 - 05/2014
- Position: member
- Responsible for: building stored system and decentralizing user.
- Work location: Vietnam Network Company.

❖ *KVM technology*

- Time: 09/2014 - 11/2014
- Position: member
- Responsible for: studying and configuring Virtual technology: KVM
- Work location: Ho Chi Minh City University of Pedagogy

❖ *Building DNS and FTP server on Ubuntu*

- Time: 08/2014 - 09/2014
- Position: leader
- Responsible for: building DNS server and FTP server on Ubuntu
- Work location: Ho Chi Minh City University of Pedagogy

❖ *Building LAN for business*

- Time: 03/2014 - 05/2014
- Position: leader
- Responsible for: building mail server, FTP server, policy... for user
- Work location: Ho Chi Minh City University of Pedagogy
