NGUYEN TANG QUANG

PROJECT MANAGER -

SENIOR SOFTWARE ENGINEER

» PROFILE AND CAREER ORIENTATION

Project Manager who handles Task Package Estimation, Resource Allocation, Loading Report, Career Development Path, Risk Definition followed by Action to avoid, recruitment campaign and so on. I am also a contact point of any Task issue between team and customer in India, China and Germany.

Senior Software Engineer with experience in Automotive Testing System: Analyzing Customer Requirement, Defining and Implementing Testing Process, Reporting Bug, troubleshooting any issues and supporting team member.

In my point of view, I am passionate with a job which develops my technical knowledge as well as the skills tending to customers interaction. The job also creates opportunities to show up my ability, strength; travel place to place and expand my relationship.

Finally, it relatively balances both work and private life. It is no matter how hard the job is I always prefer the attitude of statement: "I love it, I commit it". That is the reason I would try my best to follow my own career path.

» WORK EXPERIENCE:

I have been spending 5 years at Robert Bosch Engineering and Business Solutions VN.
