SKILLS

OFFICE

ENGLISH

TEAM WORKING

TECHNICAL SKILL

- Backend: Java Core, J2EE, Spring, Hibernate Framework
- Frontend: HTML, CSS, JavaScript, Bootstrap, JQuery, AngularJS.
- Database: MySQL, MS SQLServer, Postgre, Oracle.

EDUCATION

Aug 2012 **BACH KHOA UNIVERSITY (BKU)**
↓
Major: **Drilling and Production Engineering**
April 2017
GPA: 8.35/10

WORK EXPERIENCE

May 2018 **ROBERT BOSCH ENGINEERING AND BUSINESS SOLUTIONS VIETNAM (RBVH)**
↓
Present **Software Engineer**

- Research Logstash, Elastic Search and Kibana to build a project with main function is convert raw, unstructured data into structured data.
- Using Java, Oracle, Elastic Search, javascript to develop a web application.

Jan 2018 **FPT SOFTWARE**
↓
April 2018 **Java Fresher**

- Build a sale web using J2EE and MySQL.
- CRUD products with postgresQL using RESTFUL.
- Familiarize with Machine Learning using Python: methods and algorithm in supervised learning, unsupervised learning. Do example with Diabetes, Iris and Titanic datasets on Ubuntu operating system

Now 2016 **PETROLEUM PARTNERSHIP LIMITED COMPANY**
↓
Jan 2017 **Business Development**

- Proposed new partner in Reservoir Simulation.
- Project implementation: 2D seismic acquisition at An Chau trough – Leader in Recording team: manage 60 labors and 17 drivers (included Vietnamese, Thais and Frenches) to achieve targets and complete that project on time.

Sept 2016 **CUU LONG JOINT OPERATING COMPANY (CLJOC)**
↓
Nov 2016 **Internship**

- Internship at the Subsurface Department, CLJOC
- Proficient in welltest, production analysis, reservoir simulation.

Jan 2015 **BACH KHOA UNIVERSITY (BKU)**
↓
Sept 2015 **Scientific Research**
*Supervisor: **Ta Quoc Dung**, PhD – Dean of the Geology and Petroleum Engineering Faculty.*

- Leader of Scientific Research Group: Applied Geostatistics for Geological Modeling.
- Unpublished Paper: “Applied Geostatistics for Reservoir Modeling to Determine Reserve of Gau Den field in Cuu Long Basin”
