Email: so61pi.re@gmail.com

Date of birth: 08-07-1992

SUMMARY

Good understanding of OOP. Use C++ intensively in my projects, and really care about code correctness and performance. Eager to learn new things.

SKILLS

Languages:

- C++
 - Good understanding of C++ (including STL, C++11 and C++14)
 - Have experience with C++ template
 - Have experience with Boost

Platforms:

- Cross platform
- Windows

Tools:

- Visual Studio
- MinGW
- Clang

EDUCATION

Ho Chi Minh city University of Technology and Education – Software Engineer

ENGLISH

TOEIC 820

- Listening: 420
- Reading: 400

TOY PROJECTS

Some of my old & current toy projects:

- **C grammar checker:** Checks grammar of a C source file.
- **Mini memory scanner:** Small program that can scan memory of another process.
- **Examples:** Contains several pieces of code to demonstrate some techniques in C++ and Windows.

All projects can be found at: <https://bitbucket.org/so61pi>
