

Work Experience

VIT2 (VIETTEL)

Intern

JUN 2017 - AUG 2017

Android application voice sales.

EMBEDDED ENGINEERING (FPT SOFTWARE)

Full time

APR 2018 - DEC 2017

DSP programing

Education

BKU UNIVERSITY

Major: Computer Engineering

OCT 2014 - OCT 2018

GPA: 7.8/10

Project In School

THESIS

IOT project

SPRING 2018

Salinity Monitoring

DATABASE

Design database of shoe Shop, application for sale.

AUTUMN 2017

Oracle, C#

COMPUTER NETWORK

Locate the coordinates of the motorbike using the java language MQTT library

SPRING 2017

Java

DIGITAL SIGNAL PROCESSING

Design of band-pass filter circuit by matlab code.

AUTUMN 2016

Scilab, matlab

Subjects Studied

Data Structures and Algorithms,
System Performance Evaluation,
Database Management Systems,
Internet of Things Application Development,

Operating Systems,
Practice on Software Engineering,
Parallel Computing,
Logic Design with Verilog HDL

Additional Information

Now, I am looking forward to joining the team full stack develop.
