**Apply for position:** Senior Tester

**PROFESSIONAL SUMMARY:**

I'm senior tester with good leadership and project management skills, qualified e-Commerce QA Tester experienced in test plans and testcases. With strong scripting talents and excellent collaborative skills, have initiated and supported strategic and innovative projects with a focus on enhancing the customer experience.

I learn very quickly, especially on testing and test cases. I have also developed the ability to easily understand the business requirements.

While I'm on the senior tester role, I expanded my knowledge and experience on people development (team and individual), feature/task planning and coordinating the release schedule. I have really enjoyed this role and I have found it to be very interesting and positive for my career growth.

**KEY ACHIEVEMENTS:**

2009: Get staff of the month award (Play important role as Tester in team, do test for Storefront Page, BIS System under requirements).

2010: Team of the month award (Play important role as Tester in team, do test for Storefront Page, BIS System under requirements).

2012: Team of the year award (Play important role as Tester in team, do test for Storefront Page, BIS System, Storefront Admin under requirements).

2015: Team of the year award (Play important role as Senior Tester in team, do test for Storefront Page, BIS System under requirements).
