EDUCATION

09/2014 - 09/2018

HCMC University of Technology and Education

Major: Industrial Electronic

GPA: 7.73/10

ACTIVITIES

Sept 2014 - July 2018

HCMUTE

- Electronic Project 1

DC Motor Speed Control using PWM and ADC with PIC16F887 Microcontroller

- Electronic Project 2

Fingerprint attendance system by using Arduino

- Final Project

I'm making a graduate project with my partner. It's an IoT project which called Supermarket Control System. System consist of managing employees by using Fingerprint attendance system, controlling Ventilation and Air Conditioning, tracking product's status, supermarket's temperature and humandity on website and fire alarm system by using module SIM.

CERTIFICATIONS

TOEIC Certificate with score 545 issued by IEG from my University

03/2018

ACHIEVEMENTS & AWARDS

Four scholarships from University and one Special scholarships from Falcuty

2014-2017

BASIC KNOWLEDGE

- Using Altium, Proteus,.. design PCB layout
- C, C#, HDL programing.
- Basic web develop
