**HR Department**

**TMA INNOVATION CENTER**

TMA Tower, Street #10, Quang Trung Software City, 1 To Ky, District 12,  
Ho Chi Minh City, Vietnam

Dear Sir/Madam,

I am an employee who have experience and knowledge about finance, Python programming. I have known your company is offering a recruitment program, so I am writing in response to the position as Fresher AI / ML in your IT Department, Ho Chi Minh Office.

During school time, I participated in some extra – curricular activities as deputy leader of Eco – Law research group as a large event organizer, so I have good communication and teamwork skills. Also, I can work well on computer with popular software such as word, excel, power point and be good at communicating in English. Furthermore, I have worked at large accountancy firms as an associate which gave me chances to work in competitive and pressure environments. I gained more auditing experiences when I have been in charge of working with many audit sections such as: prepare financial statements (BS, PL, CF, Notes), Test of control, cash and cash equivalents, fixed assets, inventories, sales, cost of sales, taxation. Currently, I also work as Bien An Toan Investment Consultant JSC and have experience about big data and fintech programming in order to work with database server, build Chatbot and create features to meet the demand of investors, chance to build fundamental analysis/KPI analysis template so that can make brokers have better financial consulting.

As an employee of TMA Innovation center, I will try my best to complete tasks assigned to me and contribute to the success of your company. Moreover, this is a worthy opportunity for me to sharpen my skills, challenge myself in professional environment and collect experience for my profession as well.

I appreciate it if you could arrange an interview for me to prove my abilities. I can be contacted at [jasonnguyen1190@gmail.com](mailto:jasonnguyen1190@gmail.com) or 079 980 0123.

Enclosed are my CV.

I am available whenever you need more information. I am looking forward to your reply soon. Thank you very much for your time and consideration.

Yours faithfully,

Nguyen Le Viet Cuong – Jason Nguyen.
