

## DANG THI HUYNH NHU

ENGINEERING INTERNSHIP

 Mar 20, 1995

 Female

 (+84)962189905

 dthn1904.spkt@gmail.com

 Hochiminh, Vietnam

## OBJECTIVE

- Completion of a good internship and become a full-time employee after completing the internship.
- Proficiency in the job after the end of the internship.
- Studying, getting to know the work environment, training pressure ability.
- This job will allow me to sharpen my personal skills.

## SKILLS

Office

C language

Java language

English

Team work

## INTERESTS

- Sport
- Photography
- Travelling

## EDUCATION

### HO CHI MINH CITY UNIVERSITY OF TECHNOLOGY AND EDUCATION

AUG 2014 - PRESENT

Major: Electronics and Communication Engineering Technology

- GPA: 7.17/10
- Main course: Basic electronics, C language, Microprocessor, Digital, VHDL language, Java language, C# language, PLC, Embedded system, ...

## ACTIVITIES

Participated in Cleaning bussiness in of Electrical and Electronics Engineering.

MAY 2015

Participated in The school sports competition.

MAY 2015

Participated in The blood donation.

JAN 2017

Participate in "F1 Racing 2017" in Faculty of Electrical and Electronics Engineering.

JAN 2018

## EXPERIENCES

- Basic knowledge of PIC, Arduino, ESP, Raspberry Pi, Android, PLC, ARM,...
- Ability to use software: Visual Studio, Matlab, Quartus II, Android Studio, Keil C, Altium, Proteus, PCL Seimens, ...
- Lab Experiences: Embedded system, Digital Technique, Microprocessor, Design microcircuit by using VHDL, PLC Misubishi...
- Completed the project "Design and implementation of the electronic clock using IC Digital". (Mar 2017 - Jul 2017)
- Participating in the project "Exploratory Robot ". (Feb 2018 - present)
- Participating in scientific research: "Controlling electrical equipment in the classroom by telephone". (Feb 2018 - present)
