## EDUCATION

CAN THO UNIVERSITY (2011-2015)

Computer Engineering

Skill learned : Python, Linux, C,C++,Auto CAD, Mutisim ,Quartus II 11.0, Protues ModelSim.

Studies

- System design traffic lights
- System design temperature sensors
- Studies and development of embedded systems

### CERTIFICATIONS AND AWARDS

- Awarded scholaship in student of Can Tho University.
- Awarded scholarshin Amcham women engineer of intel

## WORK EXPERIENCE

**SAVIWAVE (Aug 2015 to Sep 2016)**

QA/TESTER Embedded

Main task: Test Firmwave , Internet of thing

- Test-Execution (Automation) & Reporting; Bug Verification
- Write script cover test case and check list test case other can do test
- Submit Bugs on SBM or JIRA
- Implementation on modules: TCP/IP socket API for SMPP API Library, SMSC App
- Communicate directly to client for requirements
- Run test case on Linux, auto test tool.

**WIGO analytics company (Sep 2016 to Now)**

QA/ TESTER: WEB, MOBILE.

- Dessign test case,to testing.
- Write document.
- Test database (MySQL) and analysis data.
- Test-Execution (Manually) & Reporting; Bug Verification.

## SKILLS

- Working Platforms : Windows & Linux.
- Programming Languages: C, C++, Python & Java.
- DEs : IntelliJ IDEA & Eclipse.
- Databases : MySQL.
- Proficient Development of Client-Server Applications, API Libraries & Frameworks.
- Proficient Development of Embedded Systems & Protocol Stacks.
- Proficient Development of Desktop & Web Applications.
- Proficient Use of Microsoft Office suite: Word, Excel, PowerPoint, Outlook
- Proficient Use of Content Management Systems:HP QC (Quality Center), SBM (Serena Business Manager), JIRA.
- Knowledge of Software Development Process, Design Pattern, Software Testing
- Knowledge of Communications Protocol, Networking, Hardware
