```
1 def PROFILE():
2
3     To prepare well for my career, I am
4     looking for a professional environment
5     for working and studying, especially
6     about Machine Learning. I am excited to
7     get any challenges, achieve it to improve
8     myself and always make myself creative to
9     solve problems. To me, challenges are
10    opportunities.
11
12
13 def EDUCATION():
14
15     "Uni of Technology & Education"
16
17     ● Bachelor degree of Automatical and
18     Controlling Technology.(2014-2018)
19
20     ● Leader of Organizer of ECO-Days
21     IV.(Aug-Dec/2016)
22
23     ● Member of Design team of Media
24     Committee.(Aug-Dec/2016)
25
26
27     "Coursera"
28
29     ● Machine Learning by
30     Stanford University (Mar-Nov/2018)
31
32     return
33
34 def EXPERIENCE():
35
36     "Setting plan AI project"
37     #In_Process
38
39     I am learning NLP and getting used to
40     with NLTK, Stanford NLP and API.AI to
41     get the data in text to set up plans in
42     calendar app. This is my first step on
43     the path to gain experience in
44     progamming a real software with NLP.
