NGO VAN KIM NGAN

Phone: 0909.121.550

Email: nganngo7454@gmail.com

DOB: 07-04-1995

Address: 258/54B Ho Hoc Lam, Binh Tan Dist.

OBJECTIVE

I like studying how things work. Especially with machine, smart phone, devices… Technology in general. Observing the inner-working of things excites me. Every parts have their job, unify together to form a single working unit.

I am an honest person. I am willing to learn new knowledge to adapt to the demand of the company with good attitude.

EXPERIENCE

5-2017	Implement a project named "Fashion Store", an E-commerce site developed on Java with Spring MVC Framework. Using HTML, CSS, JS, SQL, Java
Late 2016	Research Unity and develop a 2D game named "Knights Battle" using UNITY Framework and C# coding language. Knights Battle is a board game that player will play against the computer (AI – will apply rules and make decision based on player's moves) to reach to the goal faster. Game have 3 level easy, medium and hard.
6-2016	Develop "PATRACO", a Java app built for manager in a small transportation company to manage Contracts, Customers, Drivers, and Vehicles. Using Java, SQL

HOBBY

Read novel, Autobiography, Psychology book, Philosophy.

Watch movies, especially sci-fi, action, cartoon.

Do housework
