"Pursue excellence, and success will follow."

Education

2014 – 2018 **BE. in Information Technology**, *Can Tho University*, Vietnam, 3.32/4.0.
Activities and societies: IT Club, Korean Students Exchange, Thais Students Exchange, AUN-QA interview

Experience

July, 2018 – Present **Software Engineer OJT**, *FPT Software HCM - Can Tho Branch*, Vietnam.
I am participating an on-job-training program for 6 months. My responsibilities are:
- Finding solutions for many Computer Vision problems.
- Implementing Deep Learning algorithms using TensorFlow.
- Deploying Machine Learning algorithms in production environment.

May, 2018 – July, 2018 **Software Engineer Intern**, *FPT Software HCM - Can Tho Branch*, Vietnam.
I have implemented some deep learning algorithms that are related to Natural Language Processing and Computer Vision.

August, 2015 – Present **Private Tutor**, *Duong Lu Dien Training*, Vietnam.
I have worked as a private tutor at a unofficial organization called Duong Lu Dien Training. I made some offline courses to help my friends in CTU learn programming. I also wrote tutorials and made videos about C programming language, object-oriented programming and algorithms. Some courses which were taught by me are Fundamentals of Computer Programming, Data Structures, Object-oriented Programming.

Languages

Vietnamese Native
English Professional working proficiency

Professional skills

Career Fields Machine Learning, Deep Learning
Programming Python, Java, C
Frameworks TensorFlow, PyTorch, OpenCV
Others Data Structures and Algorithms, Linux, Computer Network, SQL

Grants and awards

- Outstanding Undergraduate Student Award (2016)
- Student Exchange: CTU - PSU in Hat Yai, Thailand (2016)
