K4/48 Nguyen Tri Phuong, ⚲
quarter 3, Buu Hoa ward,
Bien Hoa city

Master of Science in
Computer Science-oriented data (ICT)
(Expected 2019)

Summary

❖ EXPERIENCE:
  ➢ Nearly 6-year experience in software testing
  ➢ Experienced in both of manual & automation testing
  ➢ Nearly 1-year in Data Science

❖ GOOD POINTS:
  ➢ Good general background in multiple IT skills: programming, networking, security, testing
  ➢ Self-learning & analytical skills
  ➢ Good teamwork in communication & working
  ➢ English skill: TOEIC 890/990

❖ WEAK POINTS:
  ➢ Lack of practical experience in management/leadership
  ➢ Lack of interest in documentary tasks
  ➢ Intermediate level in training & planning skills

❖ INTERESTED IN:
  ➢ Opportunities to learn & practice in fields related to Data Scientist/ML/AI
  ➢ Working with talent & friendly colleagues

SKILLS SET

TESTING

- Experienced in multiple testing types: functional, non-functional, security testing.

- Experienced in testing levels: Unit test & System test

- Development/maintenance test automation framework, automation testing scripts.

PROGRAMMING

- General knowledge on OOP

- Experienced in multiple languages: Java, VBS, Python, Windows Batch Script

- Codility test (internal test): 75%

COMPUTER SCIENCE

- General knowledge on Statistics & Linear Algebra

- General knowledge on Machine Learning algorithms: Decision Tree, Bayesian classification, Linear/Logistics regressions, …

TOOLS

- General knowledge on DB systems: MS SQL, MySQL, MongoDB

- Experienced with version control: SVN, Git

- Experienced with IDE: Eclipse, Jupyter Notebook

WORKING EXPERIENCES

Senior Test Automation Engineer
Apr 2015 – Feb 2018

ROBERT BOSCH ENGINEERING AND BUSINESS SOLUTIONS VIETNAM

Responsibilities:
- Local Product Owner: work as a local Product Owner for a sub-project. The main responsibility is to write new stories on behalf of Product Owner
- Take care of manual testing
- Develop/maintenance test automation framework
- Mentor new test engineers

Achievements:
- Best Performance Certificate in Q3 + Q4, 2015

Test Automation Engineer
Feb 2014 – Apr 2015

ROBERT BOSCH ENGINEERING AND BUSINESS SOLUTIONS VIETNAM

Responsibilities:
- Take care of both of manual & automation testing for the project
- Maintenance the automation test framework
- Assist Product Owner in developing stories of new features
- Assist test engineers in related projects

Achievements:
- Spot Awards from leader & project manager

Software Developer Engineer
July 2013– Feb 2014

TMA SOLUTIONS

Responsibilities:
- Work as a software developer: implement features, develop unit test cases in Java language.

Achievements:

Test Automation Engineer
Feb 2011– July 2013

TMA SOLUTIONS

Responsibilities:
- Develop additional functions for the internal proprietary automation framework
- Develop automation test scripts to cover testing efforts of manual test engineers.
- Mentor new test engineers.

Achievements:

EDUCATION

Master Degree
Oct 2017 – Present

JOHN VON NEUMANN INSTITUTE - VIETNAM NATIONAL UNIVERSITY HCMC

Master of Science in Computer Science-oriented data (ICT)

Bachelor Degree
Oct 2006 – Oct 2010

HO CHI MINH CITY UNIVERSITY OF SCIENCE (HCMUS)

Graduated from Information Technology faculty

GPA: 7.32
