	- platform: desktop, web
	- ide: visual studio
Java	have basic knowledge in java swing and mobile application
	- platform: desktop, mobile
	- ide: eclipse, android studio
C++	using frequently for implementation algorithms like sorting, searching
	and a basic project.

SOFT SKILLS

- encourage teamates
- good comunication
- teamwork
- organization

INTERESTS

music and sport, really like a combination of soccer and gym to get a proportionate body and good health to avoid diseases that can get from IT job soon.

PROJECTS IN UNIVERSITY

Football Tournament Management
(2016 - 2017)

Customer	No one
Description	- This is the app that helps employees manage football tournaments such as add, update, delete teams, players, coach, records of goals... https://github.com/BlueSpiritTeam/FootballTournamentManagement
Team size	2
My position	Developer
My responsibilities	- Analysis and design - Development - Review code - Optimize code - Bug Fixing
Technologies used	- Win form C#, pattern singleton - ADO.NET - SQL Server and Azure

Football Management
(2017 - 2018)

Customer	No one
Description	- This is the app that helps employees manage football tournaments such as add, update, delete teams, players https://github.com/SeniorSemester1/UITPremierLeague
Team size	3
My position	Developer

My responsibilities	- Analysis and design - Development - Review code - Optimize code - Bug Fixing
Technologies used	- C++

Vertical Fragmentation
(2017 - 2018)

Customer	No one
Description	- This is the app that get the result of the work process in development of "Vertical Fragmentation Program". https://github.com/haidang029kg/VerticalFragmentation
Team size	1
My position	Developer
My responsibilities	- Analysis and design - Development - Review code - Optimize code - Bug Fixing
Technologies used	- WPF C#

Library Management
(2016 - 2017)

Customer	No one
Description	- Basic management in library https://github.com/BlueSpiritTeam/FootballTournamentManagement
Team size	2
My position	Developer
My responsibilities	- Analysis and design - Development - Review code - Optimize code - Bug Fixing
Technologies used	- ASP.NET core 2.0 - Entity Framework core - Identity framework core

Blood Bank
(2017 - 2018)

Customer	No one
Description	- Distributed database of a Blood Bank into 3 sites seperately. https://1drv.ms/w/s!Ag-md8AOHxAunTma9csKU0sGPCgG
Team size	3
My position	Developer
My responsibilities	- Analysis and design - Development - Review code - Optimize code - Bug Fixing
Technologies used	- Oracle
