- **NIIT Hoa Sen.**

PROFESSIONAL EXPERIENCE

<11/2009> – < 08/2013> Harveyansh
<Team leader>

- **Project Description**: Build web for Hearst magazine.

- **Responsibilities:**
  - Provide solution for PM, implement code reviewer, CMO.
  - Manage tasks for whole team member and review their performance per six months of the year.
  - Support coding and troubleshooting for urgent tickets.

- **Accomplishments:**

  - Based on the good quality and stable in long time for each time I delivery the product to client. My team increase up to five guys and become a team. One year later, we get the trust from client and we have many more projects from them, our team increase up to 40 persons (including managers, testers and developers) and the project become a ODC.

  - During time I'm work for Harveynash I did build success twenty web sites for Hearst. In that list, I'm got the reward about the best structure of HTML5 site (Womansday: http://www.womansday.com/ , Goodhousekeeping: http://www.goodhousekeeping.com/ , Harpersbazaar : http://www.harpersbazaar.com/) and the best structure for responsive web (Roadandtrack: http://www.roadandtrack.com/)

- **Technologies: CMS system, Pearl, HTML/HTML5, JQUERY, CSS3 and everything else.**

<09/2013> – < 2/2014> FTP Software
<Senior Developer>

**************** Optimization web for RWE Company ****************

I) Project Role: Senior developer.

II) Project Duration: 3 months.

III)Project Description: Optimization web for RWE Company.

IV)Responsibilities:
- Restructure HTML, CSS of the site to easy maintenance, improve page performance and support multi languages.
- Customization layout for SharePoint system to make pages consistent together.
- Remove and rewrite the whole third-party JavaScript

V) Accomplishments:
- At the first time when I join this project, the (back-end team) almost dead because they cannot complete this project, the company already spent 1 year to try complete this project.

This pilot project is very important with them. I was helped them complete all the complex task related to frontend with short time frame.

- Client very pleasure when they fly from Germany to Vietnam to see our product and company get that client one year later.
