EXPERIENCE:

➤ 2013 – 2014 (From University)

Game Show 1 vs 100 Project Web

- Main responsible: Team Leader, developer.
- Tools: Dreamweaver.

This project was coded by the PHP language. Tasks were used PHP to connect DB and obtain data to display on browsers as multiple choice questions. I had not handled animation as real game show on television.

➤ 2014 – 2015 (From University)

Online Shoe Store Website Project

- Main responsible: Project Manager
- Framework: Joomla
- Success: All

In this project, I used Assembla to assign tasks and time for my team members. I also created WBS to have a scope of the total project. Joomla was used to create a commercial website.

➤ 2015 – 2016 (From University)

The Around-The-World Café/Bar Project

- Main responsible: System Analysis, Design Network Infrastructure.
- Success: All

This is about the Needs Analysis & COTS Acquisition that requires me obtain customer requirements, identify & recommend suitable IT solutions, develop a training program.

R&D: Newsletter Project (in progress)

- Main responsible: developer

In this project, I work with Codeigniter web framework which follows MVC pattern.

SKILLS

Teamwork, soft skill, reading ability document, search information, careful, responsibility.
